Detail: Clean Max is a fortified blend of mild surfactants and cleaners formulated to be a powerful cleaner yet gentle on the paint and the environment. Clean Max was developed to remove the toughest vehicle grime including bugs and tar while maximizing your surface protection.

The special biodegradable formulation is a non-toxic, non-alkaline, ph-balanced, phosphate-free blend fortified with components that suspend dirt particles so they are easily washed away. Formulated with rapid sheeting action, water will sheet safely off the vehicle leaving behind a smooth clean surface with less chance of water spots. Clean Max protects your paint while you wash and does not harm clear coats or remove any existing wax, sealant or paint protection.

Clean Max is very economical compared to other wash products. This bottle contains enough concentrate to wash your vehicle up to 30 times.

For Auto, Motorcycle, Truck, ATV, RV use.

Directions For Use: Tip bottle to dispense desired amount (1-2oz) into small chamber and pour into the bucket. Use a stream of water to activate the suds. Thoroughly soak the entire vehicle to wash off excess loose dirt. Using a wash mitt or sponge wash the vehicle from top and to bottom rinsing the wash mitt or sponge frequently. Rinse vehicle with water. Dry to avoid spotting.
