

## Rubber Max / Rubber & Plastic Trim Conditioner

Cream style exterior rubber and trim conditioner. Satin gloss.

### Sizes Available:

- 16oz.(BX118-16),
- Gallon(BX118-G)

Color: White

**Detail:** Rubber Max is an easy to use, gel style rubber conditioner and protectant formulated to penetrate the surface and leave a satin gloss finish. The high hiding characteristics quickly and evenly restore dried and discolored surfaces. **Rubber Max** will not attract dust and will not turn brown, a common problem with heavy silicone sprays. The penetrating characteristics ensures no tire sling off. Rubber Max is water based and is water and detergent resistant.

**Directions for use:** Apply small amount to a sponge applicator and check in a small inconspicuous location for colorfastness. Apply liberally and rub evenly into surface until desired area is treated. Dry spots may occur on very dry or untreated surfaces as Rubber Max is absorbed. Reapply until surface is completely conditioned and is has a consistent uniform appearance. Let dry or buff with a dry cloth for a satin look.
